How to Transition to eWOF online

Transitioning from paper-based Warrant of Fitness (WOF) inspections to electronic WOFs (eWOFs) is a simple, cost-free process for workshops in New Zealand. With tools like the system provided by **itsallauto.com**, which is free and already NZTA-approved, the switch to eWOFs is seamless. Here are the seven steps to transition from paper WOFs to eWOFs:

1. Choose an NZTA-approved eWOF Provider

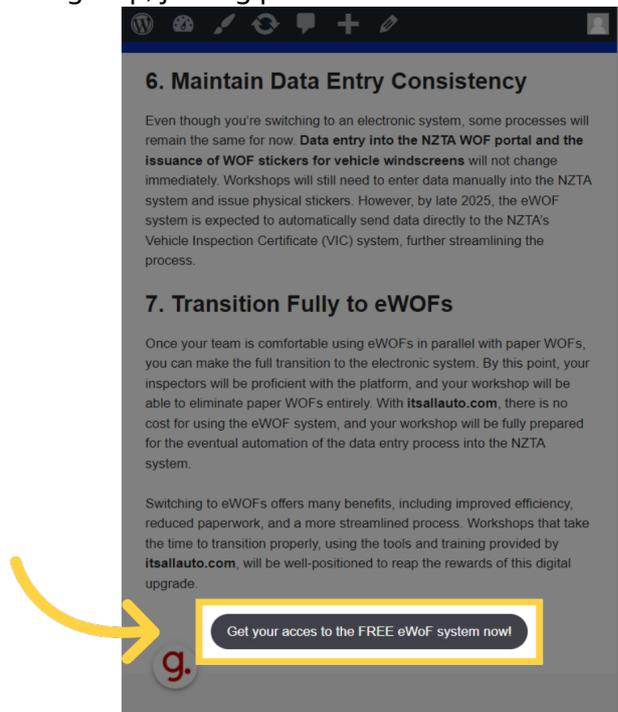

Workshops do not need to seek NZTA approval to begin using eWOFs. Instead, all they need to do is select a provider that has already been approved by the NZTA. **itsallauto.com** is one such provider, offering a free and easy-to-use eWOF system. This platform also provides training videos and PDFs to help you and your team familiarize yourselves with the eWOF system.

2. Access Training Materials

Before jumping into eWOFs, take advantage of the **itsallauto.com** training resources. Their website offers comprehensive training videos and downloadable PDFs that walk users through the entire eWOF process. Training materials can be invaluable for ensuring that everyone on your team is comfortable with the new system. As the process is digital, watching these training videos and going through the guides will help you get up to speed quickly.

02 Click "Get your acces to the FREE eWoF system now!"
