

How to clear your cache (Android/Chrome)

Powered by [guidde](#)

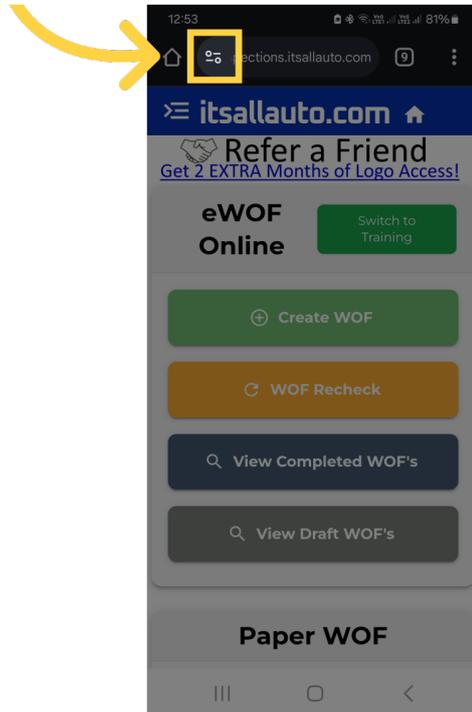

If you're having logging in issues with the Itsallauto eWOF system, clearing your cache might resolve them.

This guide will walk you through on how to do this on an Android/Chrome device.

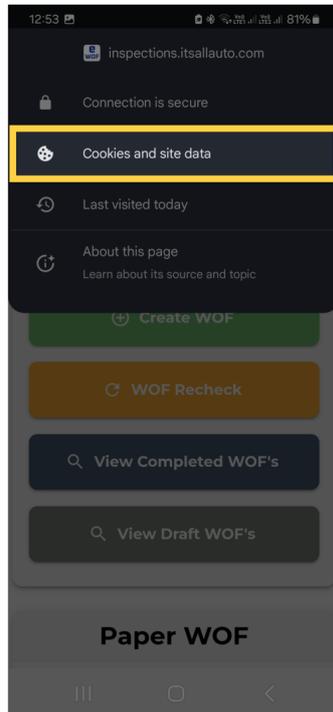

01 Press the "settings" icon

From the inspections.itsallauto.com website, press the "settings" icon to the left of the URL at the top of your screen.

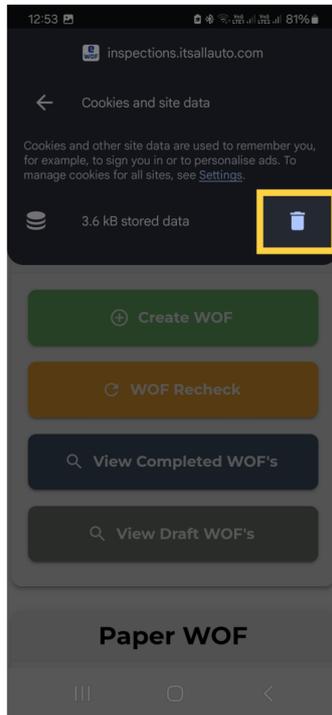

02 Select "Cookies and site data" option

A menu should pop up displaying extra site information. Select "Cookies and site data".

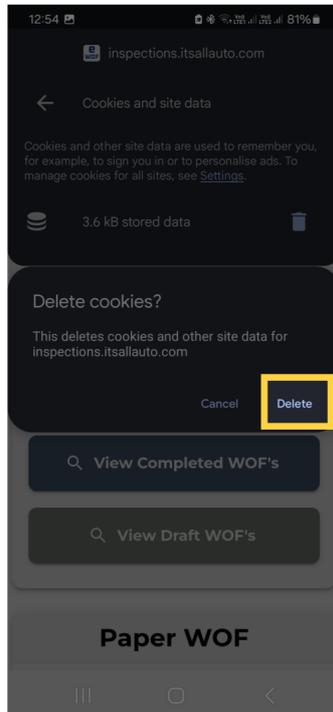

03 Press the "Rubbish Bin" icon

From the Cookies and site data menu, click the rubbish bin icon. This should display a prompt asking if you want to delete the site data.

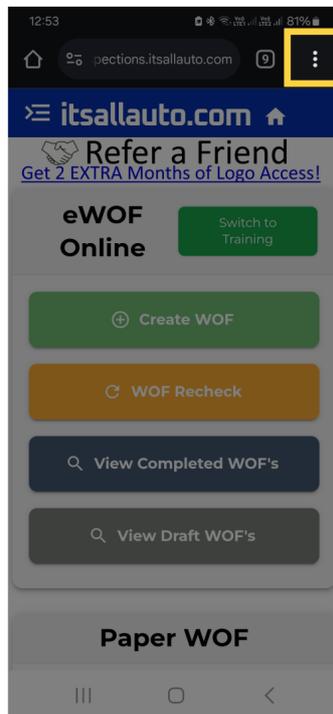

04 Press "Delete"

To confirm that you want to delete the site data, select "Delete".

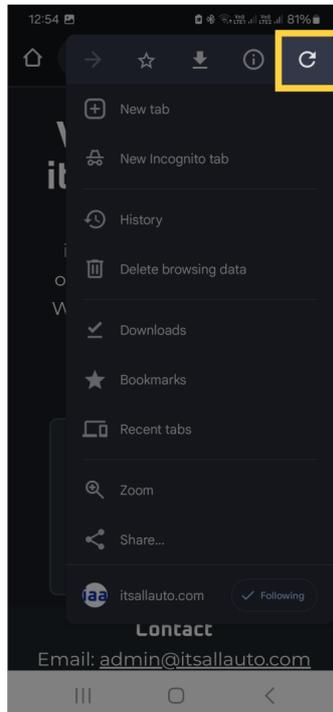

05 Refresh the page

Now that the site data has been deleted, you will want to refresh the page. Press the "more options" icon in the top right of the screen.

06 Click "refresh" button

Press the refresh icon in the top right.
