# How to login to different accounts (Android/Chrome)

Powered by

This guide will walk you through on how to log in to the Itsallauto  eWOF  system on different accounts. We will also go over how to fix the issue with Google not letting you choose what account to log in with on an Android/Chrome device.
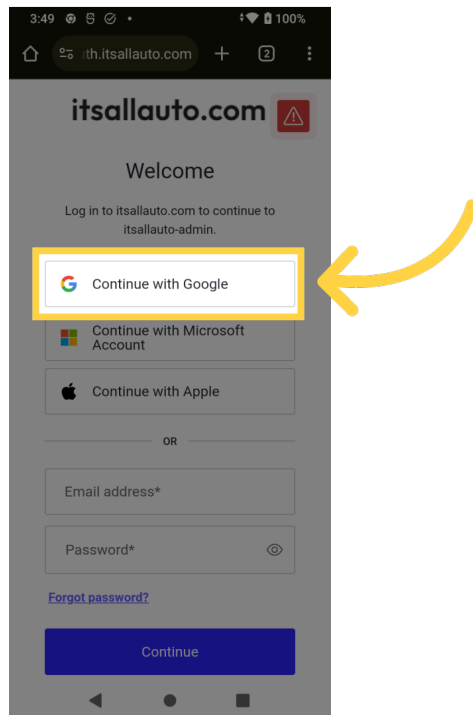

## 01 Click the "login" button

On inspections.itsallauto.com , click the login button

## 02 Choose log in method

Choose your log in method and then follow the prompts for logging in. Which log in method you select should be based on what method you used to sign up. In this example, we will choose Google.

## 03 Confirm you've signed in to the right account

After following the prompts for logging in, you should reach the Itsallauto  eWOF  home screen. Confirm that you have signed in to the right account by pressing the "expand sidebar" button in the top left.
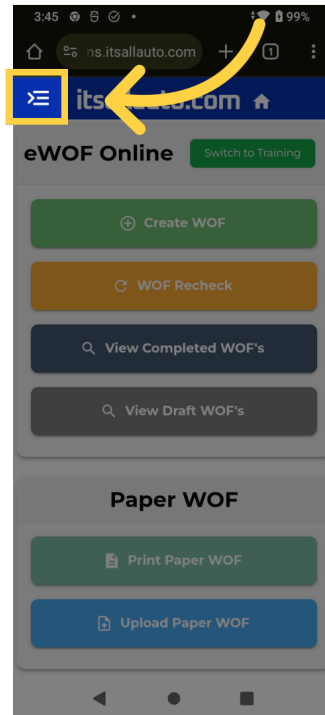

## 04 Confirm you've signed in to the right account

If the details seem correct, then congratulations, you have successfully logged in.

If you have signed in using Google, you might not get the option to select a different account to log in with. This is because Google will automatically sign you in if your google account is the only one on the device. We will walk you through on how to fix this issue.
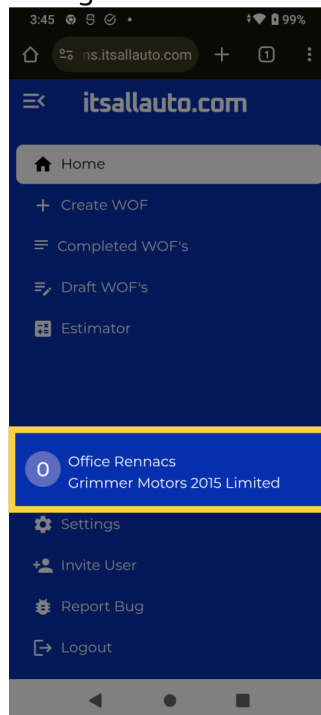

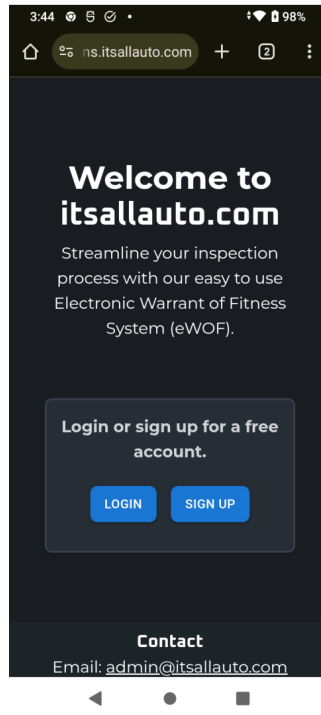

## 05 Press "Logout" button

First, sign out of your account by pressing the "Logout" button.
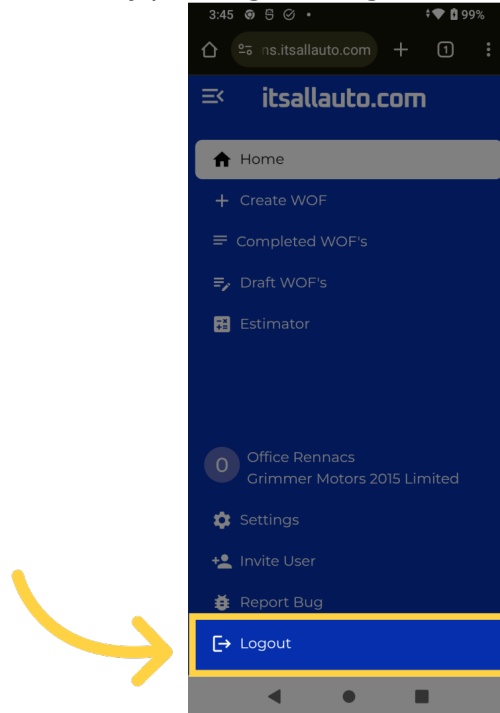

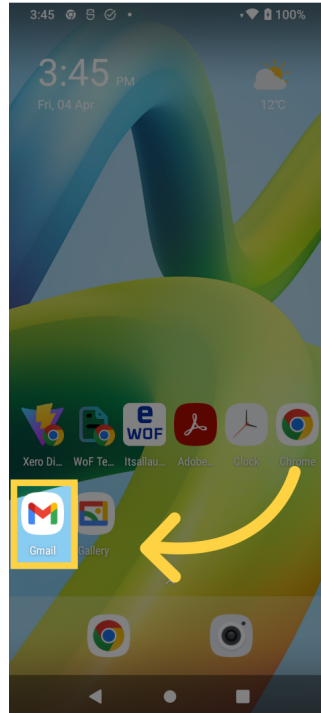

## 06 Go to your homescreen

You should now be on the login slash sign up page. Go to your home screen and find the Gmail app.
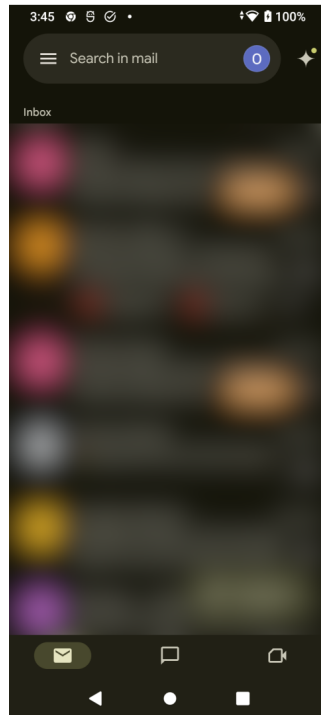

## 07 Find and open Gmail
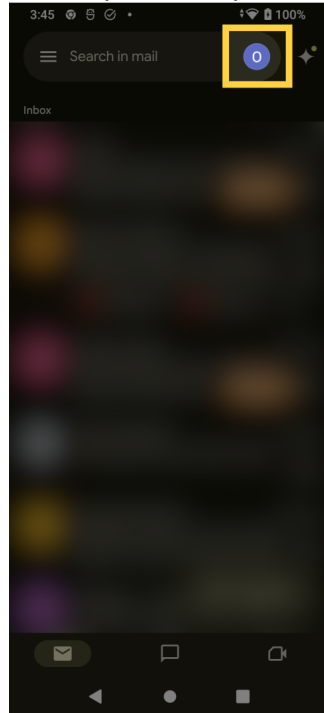

Find and open up Gmail

## 08 Should now be on inbox screen

You should now be on a screen that shows the inbox of the Google account you're currently signed in to.
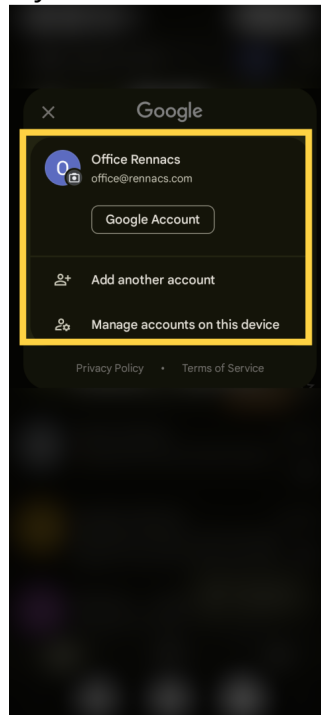

## 09 Press profile picture

To begin adding another account to Gmail, press the profile icon near the top right.
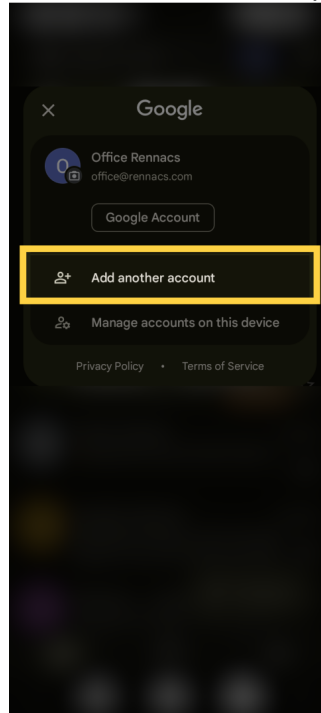

## 10 Menu should pop up

This should show a menu of the signed in accounts, and options to add and manage accounts. As you can see from our example, we only have one account logged in to Google.
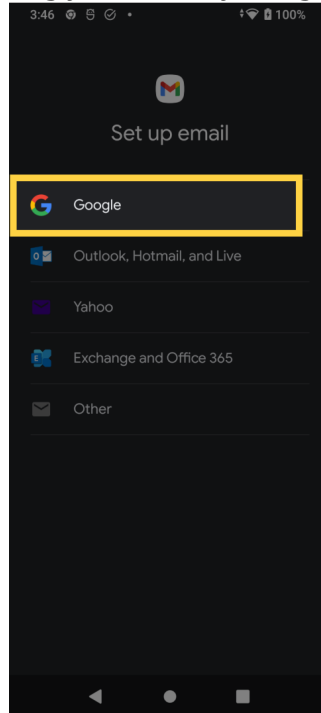

## 11 Select "Add another account" option

To add another account, press the "Add another account" option.

## 12 Select "Google"

You should now be on a screen showing you a variety of sign in options. Select "Google"
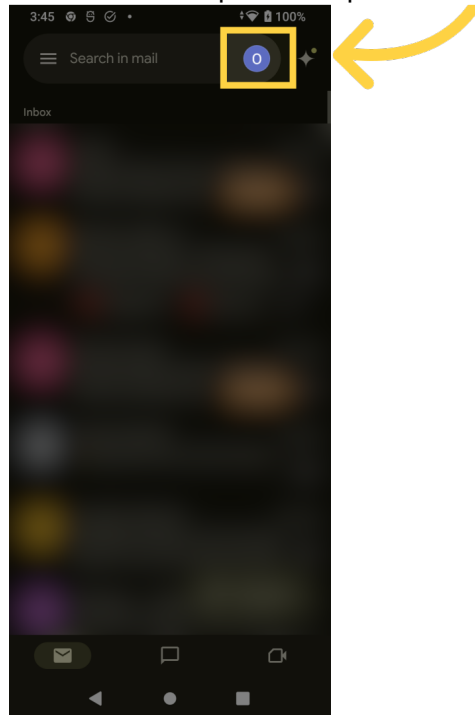

## 13 Follow log in prompts

Follow the prompts to sign in to the Google account you want to use.

## 14 Check that account has been added

After following the prompts to add an account, you should be back to the screen showing your inbox. To confirm that the account has been added, press the profile icon.

## 15 Check that there are multiple accounts, and go back to inspections.itsallauto.com
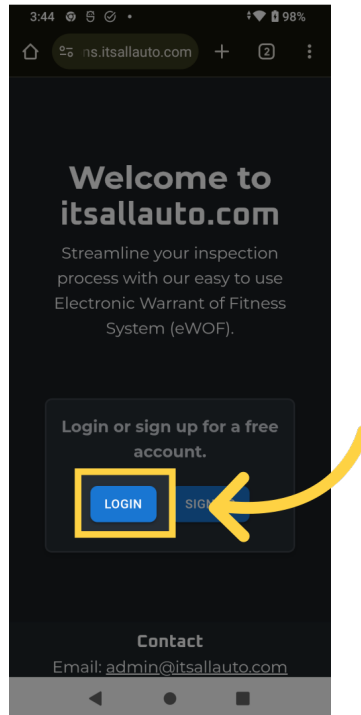

From this menu, you should now see multiple accounts. You can go back to inspections.itsallauto.com  and choose the account you want to sign in as.
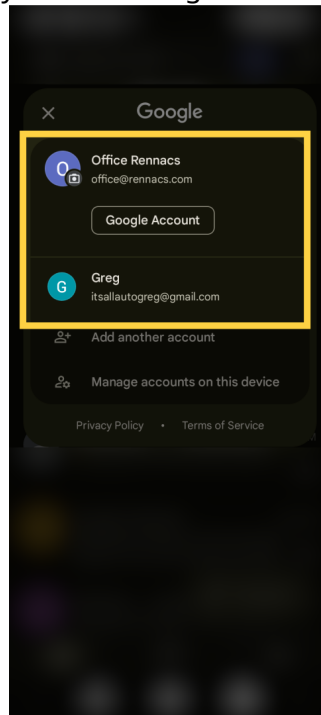

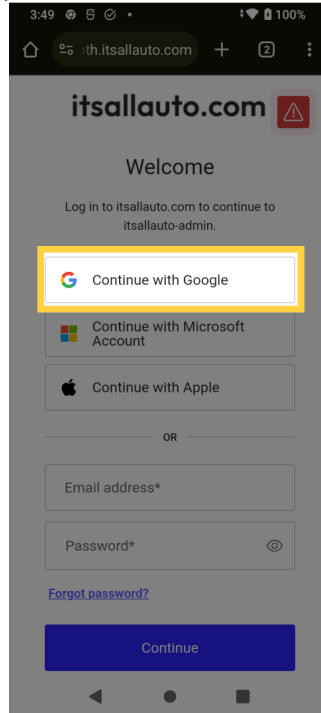

## 16 Press the "log in" button

Press the log in button.

## 17 Select "Continue with Google"

Select the "Continue with Google" option

## 18 Multiple accounts should pop up

And now you should have multiple accounts to choose from, with the option to use another one.
